**REPORT ON REVIEW OF INTERIM CONDENSED CONSOLIDATED  
FINANCIAL INFORMATION**

To the General Assembly of Anadolu Efes Biracılık ve Malt Sanayii A.Ş.

*Introduction*

We have reviewed the accompanying condensed consolidated statement of financial position of Anadolu Efes Biracılık ve Malt Sanayii A.Ş. (the “Company”) and its subsidiaries (collectively referred as the “Group”) as at 30 June 2022 and the related condensed consolidated statements of profit or loss, condensed consolidated other comprehensive income, condensed consolidated changes in equity and condensed consolidated cash flows for the six-month period then ended. The management of the Group is responsible for the preparation and fair presentation of this interim condensed consolidated financial information in accordance with Turkish Accounting Standard 34 (“TAS 34”) “Interim Financial Reporting”. Our responsibility is to express a conclusion on this interim condensed consolidated financial information based on our review.

*Scope of review*

We conducted our review in accordance with the Standard on Review Engagements (“SRE”) 2410, “Review of interim financial information performed by the independent auditor of the entity”. A review of interim condensed consolidated financial information consists of making inquiries, primarily of persons responsible for financial and accounting matters, and applying analytical and other review procedures. A review is substantially less in scope than an audit conducted in accordance with Standards on Auditing and the objective of which is to express an opinion on the consolidated financial statements. Consequently, a review on the interim condensed consolidated financial information does not provide assurance that the audit firm will be aware of all significant matters which would have been identified in an audit. Accordingly, we do not express an audit opinion.

*Conclusion*

Based on our review, nothing has come to our attention that causes us to conclude that the accompanying interim condensed consolidated financial information is not prepared, in all material respects, in accordance with TAS 34.

*Other matter*

The consolidated financial statements of the Group as of 31 December 2021 were audited and the condensed consolidated financial statements as of 30 June 2021 and for the six-month period then ended were reviewed by another audit firm whose audit report dated 23 February 2022 expressed an unqualified opinion and whose review report dated 12 August 2021 expressed a conclusion that nothing has come to their attention that not compliance with TAS 34.

*Additional explanation for convenience translation into English*

Turkish Financial Reporting Standards differ from International Financial Reporting Standards ("IFRS") issued by the International Accounting Standards Board with respect to the application of IAS 29 - Financial Reporting in Hyperinflationary Economies by 30 June 2022. Accordingly, the accompanying condensed consolidated financial statements are not intended to present fairly the condensed consolidated financial position and results of operations of the Group in accordance with IFRS.

**Adoption of new and revised Turkish Financial Reporting Standards (continued)**

*Standards, amendments, and interpretations applicable as of June 30, 2022 (continued)*

**Amendment to TFRS 16, ‘Leases’ – Covid-19 related rent concessions Extension of the practical expedient (effective 1 April 2021);** As a result of the coronavirus (COVID-19) pandemic, rent concessions have been granted to lessees. In May 2020, the IASB published an amendment to TFRS 16 that provided an optional practical expedient for lessees from assessing whether a rent concession related to COVID-19 is a lease modification. On March 31, 2021, the IASB published an additional amendment to extend the date of the practical expedient from 30 June 2021 to 30 June 2022. Lessees can elect to account for such rent concessions in the same way as they would if they were not lease modifications. In many cases, this will result in accounting for the concession as variable lease payments in the period(s) in which the event or condition that triggers the reduced payment occurs.

*Standards, amendments, and interpretations that are issued but not effective as of June 30, 2022*

The Group has not yet implemented the following standards, which are issued but not effective, and the following amendments and interpretations to existing previous standards.

**A number of narrow-scope amendments to TFRS 3, TAS 16, TAS 37 and some annual improvements on TFRS 1, TFRS 9, TAS 41 and TFRS 16;** effective from annual periods beginning on or after January 1, 2022.

- **Amendments to TFRS 3, ‘Business combinations’** update a reference in TFRS 3 to the Conceptual Framework for Financial Reporting without changing the accounting requirements for business combinations.
- **Amendments to TAS 16, ‘Property, plant and equipment’** prohibit a company from deducting from the cost of property, plant and equipment amounts received from selling items produced while the company is preparing the asset for its intended use. Instead, a company will recognise such sales proceeds and related cost in profit or loss.
- **Amendments to TAS 37, ‘Provisions, contingent liabilities and contingent assets’** specify which costs a company includes when assessing whether a contract will be loss-making. Annual improvements make minor amendments to TFRS 1, ‘First-time Adoption of TFRS’, TFRS 9, ‘Financial Instruments’, TAS 41, ‘Agriculture’ and the Illustrative Examples accompanying TFRS 16, ‘Leases’.

The Group does not expect a material impact on its interim condensed consolidated financial statements and performance.

**Amendments to TAS 1, Presentation of financial statements’ on classification of liabilities;** effective date deferred until accounting periods starting not earlier than January 1, 2024. These narrow-scope amendments to TAS 1, ‘Presentation of financial statements’, clarify that liabilities are classified as either current or non-current, depending on the rights that exist at the end of the reporting period. Classification is unaffected by the expectations of the entity or events after the reporting date (for example, the receipt of a waiver or a breach of covenant). The amendment also clarifies what TAS 1 means when it refers to the ‘settlement’ of a liability. The Group does not expect a material impact on its interim condensed consolidated financial statements and performance

**Narrow scope amendments to TAS 1, Practice statement 2 and TAS 8;** effective from annual periods beginning on or after January 1, 2023. The amendments aim to improve accounting policy disclosures and to help users of the financial statements to distinguish between changes in accounting estimates and changes in accounting policies. The Group does not expect a material impact on its interim condensed consolidated financial statements and performance.

These amendments require companies to recognise deferred tax on transactions that, on initial recognition give rise to equal amounts of taxable and deductible temporary differences. The Group does not expect a material impact on its interim condensed consolidated financial statements and performance

**IFRS 17, ‘Insurance Contracts’, as amended in December 2021;** effective from annual periods beginning on or after January 1, 2023. IFRS 17 will fundamentally change the accounting by all entities that issue insurance contracts and investment contracts with discretionary participation features. **NOTE 4. SEGMENT REPORTING**

The management monitors the operating results of its two business units separately for the purpose of making decisions about the resource allocation and performance assessment. The two operating segments are Beer Operations (Beer Group) and Soft Drinks Operations (Soft Drinks).

Segment performance is evaluated based on “EBITDA Before Non-Recurring Items” (EBITDA BNRI) which is calculated excluding profit from discontinued operations and the following effects from profit from continuing operations attributable to our equity holders:

(i) non-controlling interest, (ii) tax (expense)/income, (iii) share of gain/(loss) of investments accounted using equity method, (iv) financial income/(expense), (v) investment activity income/(expense) (vi) foreign exchange gains/(losses) arising from operating activities (vii) depreciation, amortization and other non- cash items and (viii) non-recurring items associated with Profit/Loss from Operating Activities. Non-recurring items are either income or expenses which do not occur regularly as part of the normal activities of the Group.

EBITDA BNRI is not an accounting measure under TFRS accounting and does not have a standard calculation method however it has been considered as the optimum indicator for the evaluation of the performance of the operating segments by considering the comparability with the entities in the same business.

The Group's segment reporting in accordance with TFRS 8 is disclosed as follows:

**NOTE 16. COMMITMENTS AND CONTINGENCIES (continued)**

**Murabaha**

CCBPL has signed Murabaha facility agreements with Habib Bank Limited and Standard Chartered Bank (Banks). Based on these agreements, the Banks and CCBPL agree that they shall enter into a series of sugar and resin purchase transactions from time to time on the dates and in the amounts to be agreed between them subject to the terms of this agreement. As of June 30, 2022, CCBPL has USD53 million purchase commitment to the banks for sugar and resin until December 31, 2022 and USD 5 million purchase commitment to the Banks for sugar and resin until March 31, 2023 (December 31, 2021- USD 15 million sugar until the end of June 2022 and USD 37 million sugar and resin until the end of December 2022).

**Tax and Legal Matters**

Legislation and regulations regarding taxation and foreign currency transactions in most of the territories in which the Group operates out of Türkiye continue to evolve as a result of the transformation from command to market oriented economy managed by the government. The various legislation and regulations are not always clearly written and the interpretation related with the implementation of these regulations is subject to the opinions of the local, regional and national tax authorities, the Central Bank and Ministry of Finance. Tax declarations, together with other legal compliance areas (as examples, customs and currency control) are subject to review and investigation by a number of authorities, who are enabled by law to impose significant fines, penalties and interest charges. These facts may create tax risks in the territories in which the Group operates substantially more so than typically found in countries with more developed tax systems.

As per the change in governing law in Pakistan, “Capacity Tax” was started to be applied as of July 9, 2013, replacing “Sales and Excise Tax”. CCBPL fulfilled all the obligations as per the new law and change in regulations.

As of May 2014, “Capacity Tax” application was cancelled by the constitutional court and the law has been reverted to “Sales and Excise Tax”. After this withdrawal, CCBPL fulfilled all the obligations again according to “Sales and Excise Tax” system.

After the withdrawal, Federal tax office in Pakistan requested TRL285.113 (PKR3.505 million) additional tax payment from CCBPL, by arguing that “Sales and Excise Tax” should be applied retrospectively by considering the period before the cancellation of “Capacity Tax” application. Company Management objected and litigated this request, since withdrawal decisions of constitutional court could not be applied retrospectively in principle. In the opinion of Management, the outcome of the litigation will be favourable (December 31, 2021 - TRL264.680 (PKR3.505 million)).

**Litigations against the Group**

As of June 30, 2022, according to the legal opinion taken by the administration in response to 68 lawsuits filed against Beer Operations, in the event of loss the estimated compensation will be million TRL283.439. In the opinion given by the legal counsel of the Group, it is stated that there is low probability of losing the cases and so no provision has been made in the financial statements (December 31, 2021- TRL165.285)

Soft Drink Operations are involved on an ongoing basis in 203 litigations arising in the ordinary course of business as of June 30, 2022 with an amount of TRL14.748 (December 31, 2021 – TRL17.717). As of December 31, 2021, no court decision has been granted yet.

As of June 30, 2022, CCBPL has tax litigations. If the claims are resulted against CCBPL, the tax liability would be TRL86.758 (PKR1.067 million) (December 31, 2021 – TRL393.437 (PKR5.210 million)).

Group management does not expect any adverse consequences related with these litigations that would materially affect Group’s operation results, financial status and liquidity.

**NOTE 23. EARNINGS PER SHARE**

Basic earnings per share is calculated by dividing the net income for the period attributable to ordinary shareholders by the weighted average number of ordinary shares outstanding during the period. **NOTE 26. FINANCIAL INSTRUMENTS AND FINANCIAL RISK MANAGEMENT**

The Group’s principal financial instruments comprise bank borrowings, leases, cash and short-term deposits. The main purpose of these financial instruments is to raise funds for the Group’s operations. Besides, The Group has various other financial instruments such as trade debtors and trade creditors, which arise directly from its operations.

The main risks arising from the Group’s financial instruments can be identified as interest rate risk, foreign currency risk, foreign currency hedge risk of net investments in foreign operations, liquidity risk, price risk, credit risk and capital risk. The Group management reviews and agrees policies for managing each of these risks. The Group also monitors the market price risk arising from all financial instruments.

**a) Interest Rate Risk**

The Group is exposed to interest rate risk through the impact of rate changes on interest bearing assets and liabilities. The Group manages interest rate risk by using natural hedges that arise from offsetting interest rate of assets and liabilities or derivative financial instruments.

Some of the interest rates associated with financial liabilities are based on prevailing market interest rates. Therefore, the Group is affected by changes in interest rates in national and international markets. The Group's exposure to market risk arising from changes in interest rates is primarily related to its debts and liabilities. The Group makes interest swap transactions to hedge interest rate risk as stated in Note 8.

**b) Foreign Currency Risk**

Foreign currency risk generally arises from the EURO and USD denominated assets and liabilities of the Group. The Group has transactional currency exposures. Such exposures arise from sales or purchases of goods and services or borrowings of the Group in currencies other than the functional currency. The Group manages short term foreign currency risk by balancing foreign currency denominated assets and liabilities. The Group designates certain part of its bank deposits for the future raw material purchases, operational expense and interest related payments Note 5 Group’s foreign currency liability consists of mainly long term liabilities. The Group also conducts foreign exchange forward transactions and cross currency swap transactions in order to hedge its foreign currency risk as stated in Note 8. Accordingly, in the short term foreign currency risk that may arise from fluctuation of foreign currencies are relatively limited.

**c) Foreign Currency Hedge of Net Investments in Foreign Operations**

The Group has designated two bonds, the first amounting to USD180 million out of USD500 million bond issued as of May 30, 2013 and the second amounting to USD500 million out of USD500 million bond issued as of June 28, 2021 to hedge its foreign currency risk arising from the translation of net assets of its subsidiary located in Netherlands, Efes Breweries International (whose main activity is facilitating foreign investments in breweries).

CCİ has designated two bonds, the first amounting to USD270 million out of USD500 million bond issued as of September 19, 2017 and the second USD458 million out of USD500 million bond issued as of January 20, 2022 as a hedging instrument in order to hedge its foreign currency risk arising from the translation of net assets of its subsidiary located in Netherlands, CCI Holland and Waha B.V.

The effective part of the change in the value of the bonds and loans designated as hedging of net investments amounting to TRL4.495.098 (TRL3.596.078- including deferred tax effect) is recognized as “Gains (Losses) on Hedge” under Equity and to “Other Comprehensive Income (Loss) Related with Hedges of Net Investment in Foreign Operations” under Other Comprehensive Income (December 31, 2021 – TRL5.603.352 (TRL4.482.682- including deferred tax effect), June 30, 2021 – TRL1.098.006 (TRL823.505- including deferred tax effect)).

**d) Liquidity Risk**

Liquidity risk is the risk that an entity will be unable to meet its net funding requirements. The risk is mitigated by matching the cash in and out flow volume supported by committed lending limits from qualified credit institutions. The Group also reduces the risk by preferring long-term debt.

**e) Price Risk**

This is a combination of currency, interest and market risks which the Group manages through natural hedges that arise from offsetting the same currency receivables and payables, interest bearing assets and liabilities. Market risk is closely monitored by the management using the available market information and appropriate valuation methods.

**f) Credit Risk**

Credit risk is the risk that one party to a financial instrument will fail to discharge an obligation and cause the other party to incur a financial loss. The Group attempts to control credit risk by limiting transactions with specific counterparties and assessing the creditworthiness of the counterparties.

Concentrations of credit risk arise when a number of counterparties are engaged in similar business activities or activities in the same geographic region, or have similar economic features that would cause their ability to meet contractual obligations to be similarly affected by changes in economic, political or other conditions. Concentrations of credit risk indicate the relative sensitivity of the Group's performance to developments affecting a particular industry or geographic location.

The Group seeks to manage its credit risk exposure through diversification of sales activities to avoid undue concentrations of risks with individuals or groups of customers in specific locations or businesses. The Group keeps guarantees for a part of its receivables by means of DDS (Direct Debit System). The Group also obtains guarantees from the customers when appropriate and keep considerable portion of the receivables secured with guarantees or receivable insurance.

Maximum exposure to credit risk and aging of financial assets past due but not impaired as of June 30, 2022 and December 31, 2021 are disclosed as below:

**g) Capital Risk Management**

The Group's policy is to ensure that it maintains a strong credit rating and healthy capital ratios in order to support its business and maximize shareholder value. The Group periodically measures Net Debt to EBITDA BNRI ratio to maintain capital risk management. Net Debt is calculated by deducting cash and cash equivalents and deposits over three months from total borrowing.

**NOTE 27. FINANCIAL INSTRUMENTS (FAIR VALUE AND HEDGE ACCOUNTING DISCLOSURES)**

**Fair Value**

Fair value is the amount for which an asset could be exchanged, or a liability settled between knowledgeable, willing parties in an arm's length transaction. The optimum fair value of a financial instrument is the quoted market value, if any.

The financial assets and liabilities which are denominated in foreign currencies are evaluated by the foreign exchange rates prevailing on the date of balance sheet which approximate to market rates. The following methods and assumptions were used to estimate the fair value of each class of financial instrument of the Group for which it is practicable to estimate a fair value:

**a) Financial Assets**

The fair values of certain financial assets carried at cost in the consolidated financial statements, including cash and cash equivalents plus the respective accrued interest and other financial assets are considered to approximate their respective carrying values due to their short-term nature and negligible credit losses. The carrying value of trade receivables along with the related allowance for unearned income and uncollectibility are estimated to be their fair values.

**NOTE 27. FINANCIAL INSTRUMENTS (FAIR VALUE AND HEDGE ACCOUNTING DISCLOSURES)  
(continued)**

**b) Financial Liabilities**

Trade payables and other monetary liabilities are considered to approximate their respective carrying values due to their short-term nature. The bank borrowings are stated at their amortized costs and transaction costs are included in the initial measurement of loans and bank borrowings. The fair value of bank borrowings are considered to state their respective carrying values since the interest rate applied to bank loans and borrowings are updated periodically by the lender to reflect active market price quotations. The carrying value of trade payables along with the related allowance for unrealized cost is estimated to be their fair values.
