AS OF 31 DECEMBER 2020  
TOGETHER WITH INDEPENDENT AUDITOR'S REPORT**

**(CONVENIENCE TRANSLATION OF  
INDEPENDENT AUDITOR'S REPORT ORIGINALLY ISSUED IN TURKISH)**

**INDEPENDENT AUDITOR'S REPORT**

To the General Assembly of Anadolu Efes Biracılık ve Malt Sanayii A.Ş.

**A) Report on the Audit of the Financial Statements**

**1) Opinion**

We have audited the consolidated financial statements of Anadolu Efes Biracılık ve Malt Sanayii A.Ş. ("the Company") and its subsidiaries ("the Group"), which comprise the consolidated statement of financial position as at 31 December 2020, and the consolidated statement of profit or loss, consolidated statement of other comprehensive income, consolidated statement of changes in equity and consolidated statement of cash flows for the year then ended, and notes to the consolidated financial statements, including a summary of significant accounting policies.

In our opinion, the accompanying consolidated financial statements present fairly, in all material respects, the consolidated financial position of the Group as at 31 December 2020, and its consolidated financial performance and its consolidated cash flows for the year then ended in accordance with Turkish Financial Reporting Standards ("TFRS").

**2) Basis for Opinion**

We conducted our audit in accordance with the standards on auditing issued by Capital Markets Board and the Standards on Independent Auditing ("SIA") which is a part of Turkish Auditing Standards published by the Public Oversight Accounting and Auditing Standards Authority ("POA"). Our responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of the Consolidated Financial Statements section of our report. We are independent of the Company in accordance with the Code of Ethics for Independent Auditors ("Code of Ethics") published by the POA, together with the ethical requirements that are relevant to our audit of the consolidated financial statements, and we have fulfilled our other ethical responsibilities in accordance with these requirements and the Code of Ethics. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

**3) Key Audit Matter**

Key audit matters are those matters that, in our professional judgment, were of most significance in our audit of the consolidated financial statements of the current period. These matters were addressed in the context of our audit of the consolidated financial statements as a whole, and in forming our opinion thereon, and we do not provide a separate opinion on these matters.

<b>Key Audit Matter</b>	<b>How the matter was addressed in the audit</b>
<p><b>Impairment Testing of Goodwill and Intangible Assets with Indefinite Useful Lives</b></p> <p>Anadolu Efes Biracılık ve Malt Sanayii A.Ş. ("Anadolu Efes") and its subsidiary, Coca-Cola İçecek A.Ş. ("Coca-Cola"), has expanded their operations with business combinations. As a result of the business combinations, the share of goodwill and intangible assets in total assets has reached to 40% in the consolidated financial statements.</p> <p>The Group management performs annual impairment testing of its cash generating units to which goodwill has been allocated and its intangible assets with indefinite useful lives in accordance with its accounting policies.</p> <p>The recoverable amount of cash generating units and intangible assets with indefinite useful lives is determined based on value in use. Recoverable amount is determined based on discounted projected cash flows by using key management estimates; such as, revenue increase, discount rate, long-term growth rate and inflation rate.</p> <p>There are significant estimates and assumptions used in the impairment tests performed by the Group management and these assets have material magnitude on the consolidated financial statements, thus the impairment testing of goodwill and intangible assets with indefinite useful lives is determined as a key audit matter.</p> <p>The related disclosures including the accounting policies for impairment testing of goodwill and intangible assets with indefinite useful lives are disclosed in Notes 2 and 17.</p>	<p>The audit procedures applied including but not limited to the following are:</p> <ul style="list-style-type: none"> <li>• Assessing Group’s process for the impairment testing of goodwill and intangible assets with indefinite useful lives and performing the design and implementation testing of the relevant controls,</li> <li>• Evaluating the appropriateness of cash generating units determined by Group management,</li> <li>• Review of the Group’s budget processes in details (basis of estimation) and review of basis and arithmetical accuracy of models that are used for discounted projected cash flows,</li> <li>• Comparing forecasted cash flows for each cash generating unit with its historical financial performance,</li> <li>• Through involvement of our internal valuation specialists, assessing the reasonableness of key assumptions used in each cash generating unit, including earnings before interest, tax, depreciation and amortization (“EBITDA”), long term growth rates and discount rate,</li> <li>• Comparative analysis of actual results with the initial estimations to verify the accuracy of historical estimations,</li> <li>• Evaluating sensitivity analysis of impairment tests for the potential changes in key assumptions,</li> <li>• Evaluating the appropriateness of related disclosures regarding to Intangible Assets with Indefinite Useful Lives and Goodwill in Notes 17 in accordance with TFRS.</li> </ul>

#### **4) Responsibilities of Management and Those Charged with Governance for the Consolidated Financial Statements**

Management is responsible for the preparation and fair presentation of the consolidated financial statements in accordance with TFRS, and for such internal control as management determines is necessary to enable the preparation of consolidated financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the consolidated financial statements, management is responsible for assessing the Group's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless management either intends to liquidate the Group or to cease operations, or has no realistic alternative but to do so.

Those charged with governance are responsible for overseeing the Group's financial reporting process.

#### **5) Auditor's Responsibilities for the Audit of the Consolidated Financial Statements**

Responsibilities of independent auditors in an independent audit are as follows:

Our objectives are to obtain reasonable assurance about whether the consolidated financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with the standards on auditing issued by Capital Markets Board and SIA will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these consolidated financial statements.

As part of an audit in accordance with the standards on auditing issued by Capital Markets Board and SIA, we exercise professional judgment and maintain professional skepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the consolidated financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion (The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control).

- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Group's internal control.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by management.
- Conclude on the appropriateness of management's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Group's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the consolidated financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Group to cease to continue as a going concern.
- Evaluate the overall presentation, structure and content of the consolidated financial statements, including the disclosures, and whether the consolidated financial statements represent the underlying transactions and events in a manner that achieves fair presentation.
- Obtain sufficient appropriate audit evidence regarding the financial information of the entities or business activities within the Group to express an opinion on the consolidated financial statements. We are responsible for the direction, supervision and performance of the group audit. We remain solely responsible for our audit opinion.

We communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

We also provide those charged with governance with a statement that we have complied with relevant ethical requirements regarding independence, and to communicate with them all relationships and other matters that may reasonably be thought to bear on our independence, and where applicable, related safeguards.

From the matters communicated with those charged with governance, we determine those matters that were of most significance in the audit of the consolidated financial statements of the current period and are therefore the key audit matters. We describe these matters in our auditor's report unless law or regulation precludes public disclosure about the matter or when, in extremely rare circumstances, we determine that a matter should not be communicated in our report because the adverse consequences of doing so would reasonably be expected to outweigh the public interest benefits of such communication.

## **B) Report on Other Legal and Regulatory Requirements**

In accordance with paragraph four of the Article 398 of the Turkish Commercial Code No. 6102 (“TCC”), the auditor’s report on the system and the committee of early detection of risk has been submitted to the Board of Directors of the Company on 25 February 2021.

In accordance with paragraph four of the Article 402 of TCC, nothing has come to our attention that may cause us to believe that the Group’s set of accounts and financial statements prepared for the period 1 January-31 December 2020 does not comply with TCC and the provisions of the Company’s articles of association in relation to financial reporting.

In accordance with paragraph four of the Article 402 of TCC, the Board of Directors provided us all the required information and documentation with respect to our audit.

The engagement partner on the audit resulting in this independent auditor’s report is Koray Öztürk.

**NOTE 1. GROUP’S ORGANIZATION AND NATURE OF ACTIVITIES (continued)**

**Work Environments and Economic Conditions of Subsidiaries and Joint Ventures in Foreign Countries**

Certain countries, in which consolidated subsidiaries and joint ventures operate, have undergone substantial political and economic changes in recent years. Accordingly, such markets do not possess well-developed business infrastructures and the Group’s operations in such countries might carry risks, which are not typically associated with those in more developed markets. Uncertainties regarding the political, legal, tax and/or regulatory environment, including the potential for adverse changes in any of these factors, could significantly affect the commercial activities of subsidiaries and joint ventures.

**Effect of COVID-19 Outbreak on Group Operations**

The Group has been implementing several contingency plans to mitigate the potential negative impacts of COVID-19 on the Group’s operations and financial statements. It has been some partial hitches in sales process due to lockdowns and due to closure of some sales channels in countries where the Group operates in line with the slowdown in global markets and beer/ beverage industry. Meanwhile the Group has taken series of actions to minimize capital expenditures, expenses and inventory level and has reviewed current cash flow strategies to maintain strong balance sheet and liquidity position. Lifting of curfews and decreasing in restrictions regarding to pandemic has positive effect on both market demand and the Group’s operations.

The Group management has evaluated the potential effects of COVID-19 outbreak and has reviewed the key assumptions estimations used in proportion of the consolidated financial statements. In this concept, Group has performed impairment test for financial assets, inventories, property, plant and equipment, goodwill and bottling rights and do not anticipate any material impairment loss in the consolidated financial statements as of December 31, 2020.

Nature of risks arising from financial instruments, and risk management policies and risk level for the Group has been presented in Note 33.

**NOTE 2. BASIS OF PRESENTATION OF CONSOLIDATED FINANCIAL STATEMENTS**

**2.1 Basis of Preparation and Presentation of Consolidated Financial Statements**

**Statement of Compliance to TFRS**

The consolidated financial statements are prepared in accordance with Communiqué Serial II, No:14.1, “Principles of Financial Reporting in Capital Markets” (the Communiqué) published in the Official Gazette numbered 28676 on 13 June 2013. According to Article 5 of the Communiqué, consolidated financial statements are prepared in accordance with the Turkish Accounting Standards (TAS) issued by Public Oversight Accounting and Auditing Standards Authority (POAASA). TAS contains Turkish Accounting Standards, Turkish Financial Reporting Standards (TFRS) and its addendum and interpretations.

The consolidated financial statements are presented in accordance with “Announcement regarding with TAS/TFRS Taxonomy” which was published on 7 June 2013 by POA and the format and mandatory information recommended by CMB.

In addition, the consolidated financial statements are presented in accordance with the specified format in “TFRS Taxonomy Announcement”, issued on 15 April 2019 by the POA, and “the Financial Statements Examples and Guidelines for Use”, which is published by the Capital Markets Board of Turkey.

The Company and its Turkish subsidiaries, associates and joint ventures maintain their books of accounts and prepare their statutory financial statements in accordance with the Turkish Commercial Code (“TCC”), tax legislation, the Uniform Chart of Accounts issued by the Ministry of Finance and principles issued by CMB. The foreign subsidiaries maintain their books of account in accordance with the laws and regulations in force in the countries in which they are registered. These consolidated financial statements have been prepared under historical cost conventions except for financial assets and financial liabilities which are carried at fair value. The consolidated financial statements are based on the statutory records, which are maintained under historical cost conventions, with the required adjustments and reclassifications reflected for the purpose of fair presentation in accordance with TAS.

**2.3 Significant Accounting Estimates and Decisions**

Preparation of consolidated financial statements requires management to make estimations and assumptions which may affect the reported amounts of assets and liabilities as of the statement of financial position date, the disclosure of contingent assets and liabilities and the reported amounts of income and expenses during the financial period. The accounting assessments, estimates and assumptions are reviewed considering past experiences, other factors and reasonable expectations about future events under current conditions. Although the estimations and assumptions are based on the best estimates of the management's existing incidents and operations, they may differ from the actual results.

**2.4 Changes in Accounting Policies**

**Adoption of new and revised Turkish Financial Reporting Standards**

**New and amended TFRS Standards that are effective for the current year**

**Amendments to TFRS 3 *Definition of a Business***

The definition of “business” is important because the accounting for the acquisition of an activity and asset group varies depending on whether the group is a business or only an asset group. The definition of “business” in TFRS 3 Business Combinations standard has been amended. With this change:

- By confirming that a business should include inputs and a process; clarified that the process should be essential and that the process and inputs should contribute significantly to the creation of outputs.
- The definition of a business has been simplified by focusing on the definition of goods and services offered to customers and other income from ordinary activities.
- An optional test has been added to facilitate the process of deciding whether a company acquired a business or a group of assets.

**Amendments to TAS 1 and TAS 8 *Definition of Material***

The amendments in Definition of Material (Amendments to TAS 1 and TAS 8) clarify the definition of ‘material’ and align the definition used in the Conceptual Framework and the standards.

**Amendments to TFRS 9, TAS 39 and TFRS 7 *Interest Rate Benchmark Reform***

The amendments clarify that entities would continue to apply certain hedge accounting requirements assuming that the interest rate benchmark on which the hedged cash flows and cash flows from the hedging instrument are based will not be altered as a result of interest rate benchmark reform.

**Amendments to TFRS 16 *COVID-19 Related Rent Concessions***

The changes in COVID-19 Related Rent Concessions (Amendment to TFRS 16) brings practical expedient which allows a lessee to elect not to assess whether a COVID-19-related rent concession is a lease modification. The practical expedient applies only to rent concessions occurring as a direct consequence of COVID-19 and only if all of the following conditions are met:

- the change in lease payments results in revised consideration for the lease that is substantially the same as, or less than, the consideration for the lease immediately preceding the change;
- any reduction in lease payments affects only payments originally due on or before 30 June 2021 (a rent concession would meet this condition if it results in reduced lease payments on or before 30 June 2021 and increased lease payments that extend beyond 30 June 2021); and
- there are no substantive changes to other terms and conditions of the lease.

The amendment is effective for annual reporting periods beginning on or after 1 June 2020. Earlier application is permitted.

**2.4 Changes in Accounting Policies (continued)**

**New and amended TFRS Standards that are effective for the current year (continued)**

***Amendments to References to the Conceptual Framework in TFRSs***

The references to the Conceptual Framework revised the related paragraphs in TFRS 2, TFRS 3, TFRS 6, TFRS 14, TAS 1, TAS 8, TAS 34, TAS 37, TAS 38, TFRS Interpretation 12, TFRS Interpretation 19, TFRS Interpretation 20, TFRS Interpretation 22, and SIC-32. The amendments, where they actually are updates, are effective for annual periods beginning on or after 1 January 2020, with early application permitted.

**Standards, amendments and interpretations that are issued but not effective as at 31 December 2020**

The Group has not yet adopted the following standards and amendments and interpretations to the existing standards:

***TFRS 17 Insurance Contracts***

TFRS 17 requires insurance liabilities to be measured at a current fulfillment value and provides a more uniform measurement and presentation approach for all insurance contracts. These requirements are designed to achieve the goal of a consistent, principle-based accounting for insurance contracts. TFRS 17 supersedes TFRS 4 Insurance Contracts as of 1 January 2023.

***Amendments to TAS 1 Classification of Liabilities as Current or Non-Current***

The amendments aim to promote consistency in applying the requirements by helping companies determine whether, in the statement of financial position, debt and other liabilities with an uncertain settlement date should be classified as current (due or potentially due to be settled within one year) or non-current.

Amendment defers the effective date by one year. Amendments to TAS 1 are effective for annual reporting periods beginning on or after 1 January 2023 and earlier application is permitted.

***Amendments to TFRS 3 Reference to the Conceptual Framework***

The amendments update an outdated reference to the Conceptual Framework in IFRS 3 without significantly changing the requirements in the standard.

The amendments are effective for annual periods beginning on or after 1 January 2022. Early application is permitted if an entity also applies all other updated references (published together with the updated *Conceptual Framework*) at the same time or earlier.

***Amendments to TAS 16 Proceeds before Intended Use***

The amendments prohibit deducting from the cost of an item of property, plant and equipment any proceeds from selling items produced while bringing that asset to the location and condition necessary for it to be capable of operating in the manner intended by management. Instead, an entity recognizes the proceeds from selling such items, and the cost of producing those items, in profit or loss.

The amendments are effective for annual periods beginning on or after 1 January 2022. Early application is permitted.

**NOTE 2. BASIS OF PRESENTATION OF CONSOLIDATED FINANCIAL STATEMENTS (continued)**

**Standards, amendments and interpretations that are issued but not effective as at 31 December 2020 (continued)**

**Amendments to TAS 37 *Onerous Contracts – Cost of Fulfilling a Contract***

The amendments specify that the ‘cost of fulfilling’ a contract comprises the ‘costs that relate directly to the contract’. Costs that relate directly to a contract can either be incremental costs of fulfilling that contract or an allocation of other costs that relate directly to fulfilling contracts.

The amendments published today are effective for annual periods beginning on or after 1 January 2022. Early application is permitted.

**Annual Improvements to TFRS Standards 2018-2020 Cycle**

Amendments to TFRS 1 *First time adoption of International Financial Reporting Standards*

The amendment permits a subsidiary that applies paragraph D16(a) of TFRS 1 to measure cumulative translation differences using the amounts reported by its parent, based on the parent’s date of transition to TFRSs.

Amendments to TFRS 9 *Financial Instruments*

The amendment clarifies which fees an entity includes in assessing whether to derecognize a financial liability. An entity includes only fees paid or received between the entity (the borrower) and the lender, including fees paid or received by either the entity or the lender on the other’s behalf.

Amendments to TAS 41 *Agriculture*

The amendment removes the requirement in paragraph 22 of TAS 41 for entities to exclude taxation cash flows when measuring the fair value of a biological asset using a present value technique. This will ensure consistency with the requirements in TFRS 13.

The amendments to TFRS 1, TFRS 9, and TAS 41 are all effective for annual periods beginning on or after 1 January 2022. Early application is permitted.

**Amendments to TFRS 4 *Extension of the Temporary Exemption from Applying IFRS 9***

The amendment changes the fixed expiry date for the temporary exemption in TFRS 4 Insurance Contracts from applying TFRS 9 Financial Instruments, so that entities would be required to apply TFRS 9 for annual periods beginning on or after 1 January 2023.

**Amendments to TFRS 9, TAS 39, TFRS 7, TFRS 4 and TFRS 16 *Interest Rate Benchmark Reform — Phase 2***

The amendments in Interest Rate Benchmark Reform — Phase 2 (Amendments to TFRS 9, TAS 39, TFRS 7, TFRS 4 and TFRS 16) introduce a practical expedient for modifications required by the reform, clarify that hedge accounting is not discontinued solely because of the IBOR reform, and introduce disclosures that allow users to understand the nature and extent of risks arising from the IBOR reform to which the entity is exposed to and how the entity manages those risks as well as the entity’s progress in transitioning from IBORs to alternative benchmark rates, and how the entity is managing this transition.

The amendments to TFRS 9, TAS 39, TFRS 7, TFRS 4 and TFRS 16 are all effective for annual periods beginning on or after 1 January 2021. Early application is permitted.

**NOTE 2. BASIS OF PRESENTATION OF CONSOLIDATED FINANCIAL STATEMENTS (continued)**

**2.5 Changes in Accounting Policies**

The accounting estimates of the Group are adopted to be the same as prior years and material changes in prior years' accounting estimates are explained on Note 2.35.

**2.6 Offsetting**

Financial assets and liabilities are offset and the net amount are reported in the consolidated financial statements when there is a legally enforceable right to set-off the recognized amounts and there is an intention to settle on a net basis or realize the assets and settle the liabilities simultaneously.

**2.7 Basis of Consolidation**

The consolidated financial statements comprise the financial statements of the parent company, Anadolu Efes, its subsidiaries drawn up to the reporting date. The financial statements of the companies included in the consolidation have been prepared based on the accounting policies and presentation formats adopted by the Group in accordance with CMB Financial Reporting Standards.

Subsidiaries are all entities (including structured entities) over which the Group has control. The Group controls an entity when the Group is exposed to, or has rights to, variable returns from its involvement with the entity and has the ability to affect those returns through its power over the entity. Subsidiaries are consolidated by using the full consolidation method; therefore, the carrying value of subsidiaries is eliminated against the related shareholders' equity. The equity and net income attributable to minority shareholders' interests of subsidiaries are shown separately in the consolidated balance sheet and consolidated income loss statement.

The Company and The Coca Cola Export Corporation (TCCEC) which owns 20,09% shares of CCI, decided to change some of the provisions defined as the "important decisions" in the Association Agreement which is effective from January 1, 2013. As a result of this change, in accordance with the Shareholders' Agreement, TCCEC will have certain protective rights on major decisions. As a result, with effect from January 1, 2013, Anadolu Efes gained control over CCI and started to include CCI and its subsidiaries in consolidation scope.

A joint venture agreement was signed between EBI and AB Inbev Efes BV with a 50% stake in Anheuser Busch InBev SA/NV (AB InBev). As a result of this partnership agreement has gained control over JSC Sun InBev, PJSC Sun InBev Ukraine and Bevmar GmbH. In addition to that EBI's control over Euro-Asien is continuing. Therefore since March 29, 2018 EBI, has started to consolidate companies of JSC Sun InBev, PJSC Sun InBev Ukraine ve Bevmar GmbH. As of March 29, 2018 Euro-Asien, which were previously consolidated with a 100% direct final ratio, continued to be consolidated with a 50% direct ownership to EBI.

Joint ventures are companies in respect of which there are contractual arrangements through which an economic activity is undertaken subject to joint control by the Group and its subsidiaries together with one or more other parties. The Group's interest in joint ventures is accounted with equity method starting from January 1, 2013 according to TFRS 11.

The shareholder agreement signed between the company and Özgörkey Holding A.Ş., which owns 23,78% shares of Anadolu Etap on 4 December 2019, and Anadolu Etap's management structure does not allow any shareholder to control Anadolu Etap on its own. Anadolu Etap, is currently being accounted to Group's financials on equity method and will continue to be accounted by using equity method during the period of validity of the shareholder agreement terms.

Intercompany balances and transactions, including intercompany profits and unrealized profits and losses are eliminated. Consolidated financial statements are prepared using uniform accounting policies for similar transactions and other events in similar circumstances.

The acquisition method of accounting is used for business combinations. Subsidiaries, joint ventures or investment in associates, acquired or disposed of during the year are included in the consolidated financial statements from the date of acquisition or to the date of disposal.

**NOTE 2. BASIS OF PRESENTATION OF CONSOLIDATED FINANCIAL STATEMENTS (continued)**

**2.8 Cash and Cash Equivalents**

Cash and cash equivalents comprise cash in hand, bank deposits and short-term investments, which can easily be converted into cash for a certain amount, has high liquidity with original maturities of 3 months or less. In accordance with TAS 7, bank deposits with a maturity of more than 3 months as of the acquisition date are reclassified to short term financial investments. However, Group recognises bank deposits with a maturity more than 3 months, which are considered to be highly liquid and do not include interest loss and penalty if compromised before maturity, to cash and cash equivalents. The deposits with the original maturities more than 3 months are classified to financial investments. The amounts paid under reverse repurchase agreements are included in the cash and cash equivalents.

**2.9 Trade Receivables and Expected Credit Loss**

Trade receivables that are originated by the Group by the way of providing goods or services are generally collected in 14 to 65 day terms. Trade receivables are recognized and carried at discounted amount if they include significant interest less an allowance for any uncollectible amounts. Expected credit loss is recognized by using the expected credit loss defined in TFRS 9. Expected credit losses are calculated based on Group's future estimates and experience over the past years.

**2.10 Related Parties**

Parties are considered to be related if one party directly or indirectly has the ability to control the other party or exercise significant influence over the other party in making the financial and operating decisions or be the associate of the Group. Related parties also include individuals who are principle owners, management and members of the Group's board of directors and their families. Amounts due from and due to related parties are carried at cost. Related party transactions are transfers of resources, services or obligations between related parties, regardless of whether a price is charged.

**2.11 Inventories**

Inventories are valued at the lower of cost and net realizable value. Net realizable value is the selling price in the ordinary course of business, less the costs of completion, marketing and distribution. Cost is determined primarily on the basis of the weighted average cost method. For processed inventories, cost includes direct materials, direct labor and the applicable allocation of fixed and variable overhead costs based on a normal operating capacity. Net realizable value represents the estimated selling price less all estimated costs of completion and costs necessary to make the sale. When the net realizable value of inventory is less than cost, the inventory is written down to the net realizable value and the expense is included in statement of income/(loss) in the period the write-down or loss occurred. When the circumstances that previously caused inventories to be written down below cost no longer exist or when there is clear evidence of an increase in net realizable value because of changed economic circumstances, the amount of the write-down is reversed. The reversal amount is limited to the amount of the original write-down.

**2.12 Financial Investments**

According to TFRS 9, all investments in equity instruments are to be measured at fair value. However, in limited circumstances, cost may provide an appropriate estimate of fair value. This would be the case if insufficient more recent information is available to measure fair value or if there is a wide range of possible fair value measurements and cost represents the best estimate of fair value within that range.

**2.13 Investment Properties**

Investment properties consist of building and land improvements that are owned and not used by Group. They are hold on hand to earn rental income and capital appreciation. Investment properties are shown by deducting accumulated depreciation from the acquisition cost investment properties (except land) are depreciated by using straight-line depreciation method.

**NOTE 2. BASIS OF PRESENTATION OF CONSOLIDATED FINANCIAL STATEMENTS (continued)**

**2.14 Property, Plant and Equipment**

Property, plant and equipment (PP&E) are stated at cost less accumulated depreciation and any impairment in value. Land is not depreciated. Depreciation is computed by the straight-line method over the following estimated useful lives:

Buildings and land improvements	5-49 years
Machinery and equipment	6-20 years
Leasehold improvements	4-20 years
Furnitures and fixtures	5-10 years
Vehicles	5-10 years
Returnable bottles and cases	5-10 years
Other tangible assets	5-12 years

The carrying values of property, plant and equipment are reviewed for impairment when events or changes in circumstances indicate the carrying value may not be recoverable. If any such indication exists and where the carrying values exceed the estimated recoverable amount, the assets or cash-generating units are written down to their recoverable amount. The recoverable amount of property, plant and equipment is the greater of net selling price and value in use. In assessing value in use, the estimated future cash flows are discounted to their present value using a pre-tax discount rate that reflects current market assessments of the time value of money and the risks specific to the asset. For an asset that does not generate largely independent cash inflows, the recoverable amount is determined for the cash-generating unit to which the asset belongs. The increase in the carrying amount of an asset attributable to a reversal of an impairment loss shall not exceed the carrying amount that would have been determined (net of amortization or depreciation) had no impairment loss been recognized for the asset in prior years. The increase is recognized in the consolidated income statement (Note 27).

Expenses for repair and maintenance of property, plant and equipment are normally charged to the income statement. They are, however, capitalized and depreciated through the estimated useful life of the property, plant and equipment in exceptional cases if they result in an enlargement or substantial improvement of the respective assets.

The Group management recognizes returnable bottles as property, plant and equipment. The Group sells its products also in non-returnable bottles. For such sales, there is no deposit obligation of the Group.

**2.15 Leases**

***Group - as a lessee***

At inception of a contract, the Group assesses whether the contract is, or contains, a lease. A contract is, or contains, a lease if the contract conveys the right to control the use of an identified asset for a period of time in exchange for consideration.

Group considers following indicators for the assessment of whether a contract conveys the right to control the use of an identified asset for a period of time or not:

- The contract includes an identified asset (contract includes a definition of a specified asset explicitly or implicitly),
- A capacity portion of an asset is physically distinct or represents substantially all of the capacity of an asset (if the supplier has a substantive right to substitute the asset and obtain economic benefits from use of the asset, then the asset is not an identified asset),
- Group has the right to obtain substantially all of the economic benefits from use of the identified asset,
- Group has the right to direct the use of an identified asset.

**NOTE 2. BASIS OF PRESENTATION OF CONSOLIDATED FINANCIAL STATEMENTS (continued)**

**2.15 Leases (continued)**

Group has the right to direct the use of the asset throughout the period of use only if either:

- a) Group has the right to direct how and for what purpose the asset is used throughout the period of use or
- b) Relevant decisions about how and for what purpose the asset is used are predetermined:

- i. Group has the right to operate the asset (or to direct others to operate the asset in a manner that it determines) throughout the period of use, without the supplier having the right to change those operating instructions; or
- ii. Group designed the asset (or specific aspects of the asset) in a way that predetermines how and for what purpose the asset will be used throughout the period of use.

Group recognises a right-of-use asset and a lease liability at the commencement date of the lease following the consideration of the above mentioned factors.

*Right-of-use asset*

At the commencement date, the Group measures the right-of-use asset at cost. The cost of the right-of-use asset comprises:

- a) the amount of the initial measurement of the lease liability,
- b) any lease payments made at or before the commencement date, less any lease incentives received,
- c) any initial direct costs incurred by the Group, and
- d) an estimate of costs to be incurred by the Group in dismantling and removing the underlying asset, restoring the site on which it is located or restoring the underlying asset to the condition required by the terms and conditions of the lease (unless those costs are incurred to produce inventories).

When applying the cost model, Group measures the right-of-use asset at cost:

- a) less any accumulated depreciation and any accumulated impairment losses; and
- b) adjusted for any remeasurement of the lease liability.

Group applies the depreciation requirements in TAS 16 Property, Plant and Equipment Standard in depreciating the right-of-use asset.

Group applies TAS 36 Impairment of Assets Standard to determine whether the right-of-use asset is impaired and to account for any impairment loss identified.

*Lease liability*

At the commencement date, the Group measures the lease liability at the present value of the lease payments that are not paid at that date. The lease payments are discounted by using the interest rate implicit in the lease, if that rate can be readily determined, or by using the Group's incremental borrowing rate.

The lease payments included in the measurement of the lease liability comprise the following payments for the right to use the underlying asset during the lease term that are not paid at the commencement date.:

- a) fixed payments, less any lease incentives receivable,
- b) variable lease payments that depend on an index or a rate, initially measured using the index or rate as at the commencement date,
- c) payments of penalties for terminating the lease, if the lease term reflects the lessee exercising an option to terminate the lease.

**NOTE 2. BASIS OF PRESENTATION OF CONSOLIDATED FINANCIAL STATEMENTS (continued)**

**2.15 Leases (continued)**

After the commencement date, Group measures the lease liability by:

- a) increasing the carrying amount to reflect interest on the lease liability,
- b) reducing the carrying amount to reflect the lease payments made, and
- c) remeasuring the carrying amount to reflect any reassessment or lease modifications. The Group recognises the amount of the remeasurement of the lease liability as an adjustment to the right-of-use asset.

*Practical expedients*

The short-term lease agreements with a lease term of 12 months or less and agreements related to information technology equipment leases (mainly printer, laptop, mobile phone etc.), which are determined by the Group as low value, have been evaluated within the scope of practical expedients introduced by the TFRS 16 Leases Standard and related lease payments are recognised as an expense in the period in which they are incurred.

***Group - as a lessor***

All the leases that Group is the lessor are operating leases. Assets leased out under operating leases are classified under investment properties, property, plant and equipment or other current assets in the consolidated balance sheet. Rental income is recognised in the consolidated statement of income on a straight-line basis over the lease term.

**2.16 Non-Current Assets Classified as Held for Sale**

Non-current assets are classified as assets held for sale when their carrying amount is to be recovered principally through a sale transaction instead of its usage. These assets can be a business unit, sales group or a separate tangible asset. In the event that the completion of the sale of assets held for sale is postponed due to reasons beyond the control of the Group and if the active sales plan continues, the Group continues to classify the assets as assets held for sale. Assets held for sale are recognized at the lower of carrying amount or fair value. The impairment loss is recognized in consolidated profit or loss statement of the period, at when the carrying value is less than the fair value. No depreciation is recognized for these assets.

**2.17 Other Intangible Assets**

Intangible assets acquired separately from a business are capitalized at cost.

Intangible assets acquired as part of an acquisition of a business are capitalized separately from goodwill, if the fair value can be measured reliably. Intangible assets, excluding development costs, created within the business are not capitalized and expenditure is charged against profits in the year in which it is incurred. Intangible assets are amortized on a straight-line basis over the best estimate of their useful lives. Intangible assets with indefinite useful life formed in the financial statements in accordance with purchase method, are not subject to amortization and the carrying amounts of such intangibles are reviewed for impairment at least annually and whenever there is an indication of possible impairment.

**NOTE 2. BASIS OF PRESENTATION OF CONSOLIDATED FINANCIAL STATEMENTS (continued)**

**2.17 Other Intangible Assets (continued)**

**a) Brands**

The brands, which belong to International Beer Operations and which are acquired as part of a business combination, are carried at their fair value and brands are separately carried at cost in the financial statements. The Group expects that the brands will generate cash inflow indefinitely and therefore are not amortized. Brands are tested for impairment annually

**b) Bottlers and Distribution Agreements**

Bottlers and distribution agreements include;

- i) Bottlers and distribution agreements that are signed with the Coca Cola Company identified in the financial statements of the subsidiaries acquired through change in scope of consolidation in 2013.
- ii) “Distribution Agreements” that are signed related with various brands identified in the fair value financial statements of the subsidiaries acquired by EBI in 2012 and 2018.

Since the Group management expects to renew these agreements without any additional costs after expiration, it is decided that there are no definite useful lives of such assets. The intangible assets relating to the bottlers and distribution agreements are therefore not amortized. Bottlers and distribution agreements are tested for impairment annually.

**c) License Agreements**

License and distribution agreements includes, the agreements that are signed related with various brands identified in the fair value financial statements of subsidiaries acquired in 2012 and 2018 by EBI in the scope of consolidation. Since the Group management expects to renew these agreements without any additional costs after expiration, it is decided that there are no definite useful lives of such assets. The intangible assets relating to the bottlers and distribution agreements are therefore not amortized. License and distribution agreements are tested for impairment annually.

**d) Rights**

The rights acquired as part of a business combination is carried at their fair value and if they are acquired separately, then they are carried at cost in the financial statements. Rights in the consolidated financial statements comprise mainly water sources usage rights and are amortized on a straight-line basis over 9 to 40 years.

**e) Software**

The cost of acquisition of new software is capitalized and treated as an intangible asset if these costs are not an integral part of the related hardware. Software is amortized on a straight-line basis over 1 to 5 years.

**2.18 Business Combinations and Goodwill**

The acquisition method of accounting is used to account for all business combinations, regardless of whether equity instruments or other assets are acquired. Identifiable assets acquired and liabilities and contingent liabilities assumed in a business combination are, with limited exceptions, measured initially at their fair values at the acquisition date. The group recognises any non-controlling interest in the acquired entity on an acquisition-by-acquisition basis either at fair value or at the non-controlling interest’s proportionate share of the acquired entity’s net identifiable assets.

Acquisition-related costs are expensed as incurred.

**NOTE 2. BASIS OF PRESENTATION OF CONSOLIDATED FINANCIAL STATEMENTS (continued)**

**2.18 Business Combinations and Goodwill (continued)**

The excess of the:

- consideration transferred,
- amount of any non-controlling interest in the acquired entity, and acquisition-date fair value of any previous equity interest in the acquired entity over the fair value of the net identifiable assets acquired is recorded as goodwill. If those amounts are less than the fair value of the net identifiable assets of the subsidiary acquired, the difference is recognised directly in profit or loss as a bargain purchase.

If the business combination is achieved in stages, the acquisition date carrying value of the acquirer's previously held equity interest in the acquire is remeasured to fair value at the acquisition date. Any gains or losses arising from such remeasurement are recognised in profit or loss.

**2.19 Trade Payables**

Trade payables are non-derivative financial liabilities with fixed or determinable payments that are not quoted in an active market. Such financial liabilities are initially recognised at fair value and represented by the original invoice amount. After initial recognition, trade payables are measured at amortised cost using the effective interest rate method. The Group's trade payables are due within twelve months after the financial statement date, therefore classified under current liabilities.

**2.20 Borrowings**

All borrowings are initially recognized at cost, being the fair value of the consideration received net of issue costs associated with the borrowing. After initial recognition, borrowings are subsequently measured at amortized cost using the effective interest rate method. Amortized cost is calculated by taking into account any issue costs, and any discount or premium on settlement. Gains and losses are recognized in net profit or loss when the obligations related with the borrowings are removed.

Borrowings are classified as current liabilities unless the Group has an unconditional right to defer the settlement of the liability for at least 12 months after the balance sheet date.

**2.21 Current Income Tax and Deferred Tax**

The tax expense for the year comprises current and deferred tax. Tax is recognized in the income statement, except to the extent that it relates to items recognized directly in equity. In such case, the tax is also recognized in equity. The current income tax charge is calculated in accordance with the tax laws enacted or substantively enacted at the balance sheet date in the countries where the subsidiaries and joint ventures of the Group operate.

**NOTE 2. BASIS OF PRESENTATION OF CONSOLIDATED FINANCIAL STATEMENTS (continued)**

**2.21 Current Income Tax and Deferred Tax (continued)**

**Corporate Tax Rate of Significant Subsidiaries Located in Foreign Countries**

Tajikistan	13%	13%

Deferred tax is provided, using the liability method, on all temporary differences at the balance sheet date between the tax bases of assets and liabilities and their carrying amounts for financial reporting purposes. Deferred tax liabilities are recognized for all taxable temporary differences. Deferred tax related to the equity items is carried under the equity and not reflected to income statement. Deferred tax assets are recognized for all deductible temporary differences, carry-forward of unused tax assets and unused tax losses, to the extent of the probability that taxable profit will be available against which the deductible temporary differences, carry-forward of unused tax assets and unused tax losses can be utilized. The carrying amount of deferred tax assets is reviewed at each balance sheet date and reduced to the extent that it is no longer probable that sufficient taxable profit will be available to allow all or part of the deferred tax asset to be utilized.

Deferred tax assets and liabilities are measured at the tax rates that are expected to apply to the period when the asset is realized or the liability is settled, based on tax rates (and tax laws) that have been enacted or substantively enacted at the balance sheet date.

Deferred tax assets and deferred tax liabilities are offset if a legally enforceable right exists to net off current tax assets against current income tax liabilities and the deferred taxes relate to the same taxation authority.

**2.22 Employee Benefits**

**a) Defined Benefit Plans**

In accordance with existing social legislation in Turkey, the Group companies operating in Turkey are required to make lump-sum termination indemnities to each employee who has completed over one year of service with the Group and whose employment is terminated due to retirement or for reasons other than resignation or misconduct. In the consolidated financial statements the Group has reflected a liability using the Projected Unit Credit Method and based on estimated inflation rates and factors derived using the Group's experience of personnel terminating their services and being eligible to receive such benefits and discounted by using the current market yield at the balance sheet date on government bonds.

Also, CCBPL has gratuity fund provision as a defined benefit plan and calculated in accordance with TAS 19 "Employee Benefits" using actuarial works. Employee is eligible for gratuity after completing 3 years with the Company and can take his accrued gratuity amount at the time of separation from the Company or at retirement age. This provision is calculated by actuarial firm and the actuarial gain/loss accumulated on this provision is reflected to financial statements the gains/loss originated from the changes in actuarial assumptions and the fluctuations between actuarial assumptions and the actual results are reflected as other comprehensive income to equity.

**NOTE 2. BASIS OF PRESENTATION OF CONSOLIDATED FINANCIAL STATEMENTS (continued)**

**2.22 Employee Benefits (continued)**

**b) Defined Contribution Plans**

The Group pays contributions to the Social Security Institution of Turkey on a mandatory basis. The Group has no further payment obligations once the contributions have been paid. The contributions are recognized as employee benefit expense when they are paid.

**c) Long Term Incentive Plans**

The Group provides a benefit to its employees over a certain seniority level under the name “long term incentive plan”. Provision for long term incentive plan accrued in consolidated financial statements reflects the discounted value of the estimated total provision of possible future liabilities until the financial statement date.

**2.23 Provisions, Contingent Assets and Liabilities**

**a) Provisions**

Provisions are recognized when the Group has a present obligation (legal or constructive) as a result of a past event, it is probable that an outflow of resources embodying economic benefits will be required to settle the obligation and a reliable estimate can be made of the amount of the obligation. If the effect of the time value of money is material, provisions are determined by discounting the expected future cash flows at a pre-tax rate that reflects current market assessments of the time value of money and, where appropriate, the risks specific to the liability. Where discounting is used, the increase in the provision due to the passage of time is recognized as an interest expense.

**b) Contingent Assets and Liabilities**

Contingent liabilities are not recognized in the consolidated financial statements, but are disclosed unless the possibility of an outflow of resources embodying economic benefits is remote. A contingent asset is not recognized in the consolidated financial statements, but disclosed when an inflow of economic benefits is probable.

**2.24 Foreign Currency Translations**

Transactions in foreign currencies are recorded at the rate ruling at the date of the transaction. All differences are recorded in the consolidated income statement of the relevant period, as foreign currency loss or gain. Foreign currency translation rates announced by the Central Bank of the Republic of Turkey and used by the Group’s subsidiaries in Turkey as of respective year-ends are as follows:

<b>Date</b>	<b>USD/TRL(full)</b>	<b>EURO/TRL(full)</b>
December 31, 2020	7,3405	9,0079
December 31, 2019	5,9402	6,6506

The assets and liabilities of subsidiaries and joint ventures operating in foreign countries are translated at the rate of exchange ruling at the balance sheet date and the equity items are translated using the exchange rates at the date of the transaction. The income statements of foreign subsidiaries and joint ventures are translated at average exchange rates. Differences resulting from the deviation between the values of investment related to equity accounts of consolidated subsidiaries and joint ventures and the appreciation of foreign currencies against the Turkish Lira are accounted to equity as “currency translation differences”. Goodwill and fair value adjustments arising from the acquisition of a foreign entity are treated as assets and liabilities of the acquiring company and are recorded at the exchange rate of balance sheet date. On disposal of a foreign entity, currency translation differences are recognized in the income statement as a component of the gain or loss on disposal.

**NOTE 2. BASIS OF PRESENTATION OF CONSOLIDATED FINANCIAL STATEMENTS (continued)**

**2.25 Paid in Capital**

Ordinary shares are classified as equity. Incremental costs directly attributable to the issue of new shares or options are shown in equity as deduction, net of tax, from the proceeds.

**2.26 Dividends Payable**

Dividends payable are recognized as an appropriation of profit in the period in which they are declared.

**2.27 Subsequent Events**

The Group adjusts the amount recognized in its financial statements to reflect the adjusting events after the balance sheet date. If non-adjusting events after the balance sheet date have material influence on the economic decisions of users of the financial statements, they are disclosed in the notes to the consolidated financial statements.

**2.28 Revenue**

Revenue is measured based on the consideration specified in a contract with a customer and excludes amounts collected on behalf of third parties. The Group recognizes revenue when it transfers control over a product or service to a customer:

**a) Sale of Goods**

Revenue is generated from beer and soft drinks sales to domestic and foreign dealers and customers and by-product sales. Revenues are recognised on an accrual basis at the time deliveries are made, the amount of revenue can be measured reliably and it's probable that the economic benefits associated with the transaction will flow to the Company at the fair value of considerations received or receivable. Net sales represent the invoiced value of goods shipped or services given without value added tax less sales returns and sales discounts.

Revenue recognition:

Group recognizes revenue when the goods or services is transferred to the customer and when performance obligation is fulfilled. Goods is counted to be transferred when the control belongs to the customer.

Group recognizes revenue based on the following main principles:

- Identification of customer contracts
- Identification of performance obligations
- Determination of transaction price in the contract
- Allocation of price to performance obligations
- Recognition of revenue when the performance obligations are fulfilled

Group recognized revenue from its customers only when all of the following criteria are met:

- The parties to the contract have approved the contract (in writing, orally or in accordance with other customary business practices) and are committed to perform their respective obligations,
- Group can identify each party's rights regarding the goods or services to be transferred,
- Group can identify the payment terms for the goods or services to be transferred;
- The contract has commercial substance,
- It is probable that Group will collect the consideration to which it will be entitled in exchange for the goods or services that will be transferred to the customer. In evaluating whether collectability of an amount of consideration is probable, an entity shall consider only the customer's ability and intention to pay that amount of consideration when it is due.

**NOTE 2. BASIS OF PRESENTATION OF CONSOLIDATED FINANCIAL STATEMENTS (continued)**

**2.28 Revenue (continued)**

**a) Sale of Goods (continued)**

Sale of goods: Revenue from the sale of goods is recognized when all the following conditions are satisfied:

- The Group has transferred to the buyer the significant risks and rewards of ownership of the goods;
- The Group retains neither continuing managerial involvement to the degree usually associated with ownership nor effective control over the goods sold;
- The amount of revenue can be measured reliably;
- It is probable that the economic benefits associated with the transaction will flow to the entity; and
- The costs incurred or to be incurred in respect of the transaction can be measured reliably

**b) Interest Income**

Interest income is recognized as the interest accrues. Interest income is reflected under the “financial income” in the consolidated income statement.

**c) Dividend Income**

Dividend income is recognized when the right to collect the dividend is established.

**2.29 Borrowing Costs**

Borrowing costs include interest charges and other costs incurred in connection with the borrowing of funds. Borrowing costs that are directly attributable to the acquisition or construction of a qualifying asset are capitalized. Borrowing costs other than these are recoded as expensed at the date they are incurred.

**2.30 Segment Reporting**

The Group management monitors the operating results of its three business units separately for the purpose of making decisions about resource allocation and performance assessment. The three operating segments are Turkey Beer Operations (Turkey Beer), International Beer Operations (International Beer) and Soft Drinks Operations (Soft Drinks).

Segment performance is evaluated based on profit from operations before depreciation, amortization and non-cash expenses (EBITDA). EBITDA has been determined as the optimum indicator by the Group management for the evaluation of the performance of the operating segments by considering the comparability with the entities in the same business (Note 5).

**NOTE 2. BASIS OF PRESENTATION OF CONSOLIDATED FINANCIAL STATEMENTS (continued)**

**2.31 Earnings per Share**

Earnings per share in the consolidated income statements are calculated by dividing the net profit for the year attributable to equity holders of the parent by the weighted average number of ordinary shares outstanding during the year. In Turkey, companies can increase their share capital by making distribution of free shares to existing shareholders from inflation adjustment to shareholders equity.

For the purpose of the earnings per share computations, the weighted average number of shares outstanding during the year has been adjusted with respect to free shares issued without corresponding change in resources by giving them retroactive effect for the period in which they were issued and each earlier period.

**2.32 Reporting of Cash Flows**

In the consolidated statement of cash flows, cash flows are classified and reported according to their operating, investing and financing activities. Cash flows related with investing activities present the cash flows provided from and used in the Group's investing activities and cash flows related with financing activities present the proceeds and repayments of sources in the Group's financing activities.

**2.33 Hedge Accounting**

For the purpose of hedge accounting, hedges that have been part of the Group are classified as:

- Fair value hedges when hedging the exposure to changes in the fair value of a recognized asset or liability or an unrecognized firm commitment that is attributable to a particular risk and could affect profit or loss (except for foreign currency risk)
- Cash flow hedges when hedging exposure to variability in cash flows that is either attributable to a particular risk associated with a recognized asset or liability (such as all or some future interest payments on variable rate debt) or a highly probable forecast transaction or the foreign currency risk in an unrecognized firm commitment that could affect profit or loss

At the inception of a hedge relationship, the Group formally designates and documents the hedge relationship to which the Group wishes to apply hedge accounting and the risk management objective and strategy for undertaking the hedge. The documentation includes identification of the hedging instrument, the hedged item or transaction, the nature of the risk being hedged and how the entity will assess the effectiveness of changes in the hedging instrument's fair value in offsetting the exposure to changes in the hedged item's fair value or cash flows attributable to the hedged risk. Such hedges are expected to be highly effective in achieving offsetting changes in fair value or cash flows and are assessed on an ongoing basis to determine that they actually have been highly effective throughout the financial reporting periods for which they were designated.

For fair value hedges, the change in the fair value of a hedging instrument is recognized in the statement of consolidated income. The change in the fair value of the hedged item attributable to the risk hedged is recorded as part of the carrying value of the hedged item and is also recognized in the statement of consolidated income as part of financial income and expense.

**NOTE 2. BASIS OF PRESENTATION OF CONSOLIDATED FINANCIAL STATEMENTS (continued)**

**2.33 Hedge Accounting (continued)**

For cash flow hedges, the effective portion of the gain or loss on the hedging instrument is recognized directly as other comprehensive income in the cash flow hedge reserve, while any ineffective portion is recognized immediately in the statement of consolidated income as part of financial income and expense. Amounts recognized as other comprehensive income are transferred to the statement of consolidated income when the hedged transaction affects profit or loss, such as when the hedged financial income or financial expense is recognized or when a forecast purchase occurs.

**Foreign Currency Hedge of Net Investments in Foreign Operations**

Group that is determined to be effective on the gain or loss arising from the hedging instrument related to the net investments in foreign subsidiaries operating in foreign countries is recognized directly in equity and the ineffective portion is recognized in the statement of profit or loss. In the case of disposal of a foreign subsidiary, the amount recognized in equity for the hedging instrument is recognized in profit or loss.

**Other derivatives not designated for hedge accounting**

Other derivatives not designated for hedge accounting are recognized initially at fair value; attributable transaction costs are recognized in statement of consolidated income when incurred. Subsequent to initial recognition, derivatives are measured at fair value, and changes in the fair value of such derivatives are recognized in the consolidated income statement as part of finance income and costs.

**2.34 Use of Assumptions and Accounting Estimates**

The preparation of the financial statements requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities at the date of balance sheet date. Actual results may vary from the current estimates. These estimates are reviewed periodically, and, as adjustments become necessary, they are reported in income statement in the periods in which they become known. The source of the estimates and assumptions which may cause to significant adjustments at assets and liabilities at following periods as of balance sheet date are as follows:

- a) Expected credit loss is recognized by using the expected credit loss defined in TFRS 9. Expected credit losses are calculated based on Group's future estimates and experience over the past years. (Note 10)
- b) During the assessment of the reserve for inventory allowance the following are considered; analyzing the inventories physically and historically, considering the employment and usefulness of the inventories respecting to the technical personnel view. Sales prices listed, average discount rates given for sale and expected cost incurred to sell are used to determine the net realizable value of the inventories (Note 12).
- c) The Group performs impairment test for tangible assets, intangible assets with indefinite useful life and goodwill annually or when circumstances indicate that the carrying value may be impaired. As of December 31, 2020, impairment test for the intangible assets with indefinite useful life and goodwill is generated by comparing its carrying amount with the recoverable amount. The recoverable amount is the higher of net selling price and value in use. In these calculations, estimated free cash flows before tax from business plan and approved by Board of Directors are used. Approved free cash flows before tax are calculated for 10 years period by using expected growth rates. Estimated free cash flows before tax are discounted to expected present value for future cash flows. Key assumptions such as country specific market growth rates, gross domestic product (GDP) per capita and consumer price indices were derived from external sources.

**NOTE 2. BASIS OF PRESENTATION OF CONSOLIDATED FINANCIAL STATEMENTS (continued)**

**2.34 Use of Assumptions and Accounting Estimates (continued)**

Main estimates such as raw material and good prices, working capital requirements and capital expenditures were based on the Group’s key assumptions and historical operating data. The enterprise value used as a base for the impairment test has been calculated using cash flow projections from the strategic business plan approved by the Board of Directors. Perpetuity growth rate used in impairment test in the operating units is between 4,00% - 15,07% (December 31, 2019 – 3,00% - 15,10%) and after tax discount rate is between 9,28% and 24,80% (December 31, 2019 – 8,46% and 26,70%).

- d) The liability for the put option that has been measured by applying different valuation techniques and assumptions has been presented in “other non-current liabilities” in the consolidated balance sheet based on their remaining maturities (Note 21).
- e) The discount rates related with retirement pay liability are actuarial assumptions determined with future salary increase and the employee’s turnover rates (Note 20).
- f) Deferred tax asset is only recorded if it is probable that a taxable income will be realized in the future. Under the circumstances that a taxable income will be realized in the future, deferred tax is calculated over the temporary differences by carrying forward the deferred tax asset in the previous years and the accumulated losses. As of December 31, 2020, the estimations made to indicate that the Group will incur taxable profits in the future periods were reasonable and deferred tax asset was recorded (Note 29).
- g) The management of Soft Drink Operations management has made significant assumptions based on the expertise of its technical departments in determining the useful life of spare parts for machinery and equipment. The Group made changes in its useful life estimates in 2020 and reduced the related useful life estimate for spare parts of soft drink operations from 20 years to 10 years. (Note 16)
- h) The Group accounts its returnable bottles liabilities under other payables within the framework of the accounting policies. The Group accounts its liabilities related to the part of current returnable bottles available in the market that expected to return in the future periods under other liabilities based on its estimates and assumptions.

**2.35 Comparative Information and Restatement of Prior Period Financial Statements**

The consolidated financial statements of the Group are prepared in comparison with the previous period in order to allow the determination of financial status and performance trends. In order to comply with the presentation of the current period consolidated financial statements, comparative information is restated or classified when necessary and significant differences are accordingly disclosed. In the current period, the Group has made some restatements and reclassifications in the prior period's consolidated financial statements.

Financial statements have been restated based on the issues stated below. The effects of this change have been applied retrospectively in accordance with TAS 8. TAS 1 (Revised) states that if the financial statements of the prior period are restated, the statement of financial position should be presented in three periods comparatively. Therefore, the consolidated financial statements as of January 1, 2019 and December 31, 2019 and the statement of profit or loss and other comprehensive income as of December 31, 2019 have been presented as restated.

***Restatements in the financial statements as of January 1, 2019:***

1. The Group presents its liabilities from returnable bottles in "Other Payables" account within the framework of the current accounting policies. The Group uses its best estimates and assumptions based on its observations on changing conditions and consumer behavior, in order to present its financial statement and performance regarding the liabilities related to returnable bottles reflected in 'Other Payables' account more accurately. As of January 1, 2019, the "Previous Years' Profits and Losses" effect is TRL 194.230, the "Other Payables" effect is TRL 249.013, the "Deferred Tax Asset" effect is TRL 54.782. The Group reclassified the deposit liabilities previously presented in "Other Long Term Payables" account to "Short Term Other Payables" account.

**NOTE 5. SEGMENT REPORTING**

The management monitors the operating results of its three business units separately for the purpose of making decisions about the resource allocation and performance assessment. The three operating segments are Turkey Beer Operations (Turkey Beer), International Beer Operations (International Beer) and Soft Drinks Operations (Soft Drinks).

Segment performance is evaluated based on profit from operations before depreciation, amortization and non-cash expenses (EBITDA). EBITDA has been determined as the optimum indicator by the Group management for the evaluation of the performance of the operating segments by considering the comparability with the entities in the same business.

The Group's segment reporting in accordance with TFRS 8 is disclosed as follows:

**Murabaha**

CCBPL has signed Murabaha facility agreements with Habib Bank Limited and Standard Chartered Bank (Banks). Based on these agreements, the Banks and CCBPL agree that they shall enter into a series of sugar and resin purchase transactions from time to time on the dates and in the amounts to be agreed between them subject to the terms of this agreement. As of December 31, 2020, CCBPL has USD2,8 million and USD 0,8 million sugar purchase commitments to the Banks until the end of June 2021 and September 2021 respectively.

**Tax and Legal Matters**

Legislation and regulations regarding taxation and foreign currency transactions in most of the territories in which the Group operates out of Turkey continue to evolve as a result of the transformation from command to market oriented economy managed by the government. The various legislation and regulations are not always clearly written and the interpretation related with the implementation of these regulations is subject to the opinions of the local, regional and national tax authorities, the Central Bank and Ministry of Finance. Tax declarations, together with other legal compliance areas (as examples, customs and currency control) are subject to review and investigation by a number of authorities, who are enabled by law to impose significant fines, penalties and interest charges. These facts may create tax risks in the territories in which the Group operates substantially more so than typically found in countries with more developed tax systems.

As per the change in governing law in Pakistan, "Capacity Tax" was started to be applied as of July 9, 2013, replacing "Sales and Excise Tax". CCBPL fulfilled all the obligations as per the new law and change in regulations.

As of May 2014, "Capacity Tax" application was cancelled by the constitutional court and the law has been reverted to "Sales and Excise Tax". After this withdrawal, CCBPL fulfilled all the obligations again according to "Sales and Excise Tax" system.

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS AS AT DECEMBER 31, 2020

NOTE 18. COMMITMENTS AND CONTINGENCIES (continued)

**Tax and Legal Matters (continued)**

After the withdrawal, Federal tax office in Pakistan requested PKR 3,505 million (equivalent to USD21,9 million) additional tax payment from CCBPL, by arguing that “Sales and Excise Tax” should be applied retrospectively by considering the period before the cancellation of “Capacity Tax” application. Company Management objected and litigated this request, since withdrawal decisions of constitutional court could not be applied retrospectively in principle. In the opinion of Management, the outcome of the litigation will be favourable (December 31, 2019 - PKR 3,505 million, equivalent to USD 22,5 million).

**Litigations against the Group**

As of December 31, 2020, according to the legal opinion taken by the administration in response to the 38 lawsuits filed against JSC AB Inbev Efes, in the event of loss the estimated compensation will be million TRL13.300. In the opinion given by the legal counsel of the Group, it is stated that there is low probability of losing the cases and so no provision has been made in the financial statements. (December 31, 2019- estimated compensation million TRL 5.948)

CCI and subsidiaries in Turkey are involved on an ongoing basis in 213 litigations arising in the ordinary course of business as of December 31, 2020 with an amount of TRL14.458 (December 31, 2019 – TRL11.532). As of December 31, 2020, no court decision has been granted yet.

As of December 31, 2020, CCBPL has tax litigations. If the claims are resulted against CCBPL, the tax liability would be PKR5.126, equivalent to USD32.1 (December 31, 2019 - PKR1.478 million, equivalent to USD 9.5 million).

Group management does not expect any adverse consequences related with these litigations that would materially affect Group’s operation results or financial status.

In accordance with existing social legislation, the Group's companies incorporated in Turkey are required to make lump-sum payments to employees whose employment is terminated due to retirement or for reasons other than resignation or misconduct. Such payments are calculated on the basis of 30 days' pay. The retirement pay liability as at December 31, 2020 is subject to a ceiling of full TRL7.117 (December 31, 2019 – full TRL6.380) Retirement pay liability ceiling has been increased to full TRL7.639 as of January 1, 2021. In the consolidated financial statements as of December 31, 2020 and 2019, the Group reflected a liability calculated using the projected unit credit method and based upon factors derived using their experience of personnel terminating their services and being eligible to receive retirement pay and discounted by using the current market yield at the balance sheet date on government bonds. Accordingly, net discount rates determined by considering expected payment dates are in a range between 4,15% and 3,01% (December 31, 2019 – 4,21% and 3,80%).

The obligation of TRL17.324 results from the buying option carried, for the purchase of 12,5% of Turkmenistan CC shares from Day Investment Ltd., with a consideration of USD 2.360 thousand. USD amount is converted with the official USD purchase rate announced by Central Bank of Republic of Turkey and resulting TRL amount is reflected under other current liabilities (December 31, 2019 - TRL 14.019).

According to the put option signed with European Refreshments (ER), which became effective after the completion of Al Waha acquisition and exercisable between December 31, 2016 and 2021, ER has an option to sell (and CCI will have an obligation to buy) its remaining 19,97% participatory shares in Waha B.V.. This obligation is recorded as put option liability in the Group’s consolidated financial statements. Based on the contract, fair value of the put option liability is calculated using discounted cash flow method as TRL313.961 and the amount is recorded under “other non-current liabilities” account (December 31, 2019 – TRL209.204).

As of December 31, 2020 and 2019, there is no privileged share representing the capital. According to the articles of association, foundation shares that do not represent the share capital receives 2% of the profit that remains after 10% of the paid in capital is deducted from the distributable profit for the period.

**NOTE 22. EQUITY, RESERVES AND OTHER EQUITY ITEMS (continued)**

**b) Restricted Reserves Allocated from Net Profit, Revaluation Fund and Accumulated Profits**

The legal reserves consist of first and second legal reserves in accordance with the Turkish Commercial Code. The first legal reserve is appropriated out of the statutory net income at the rate of 5%, until the total reserve reaches a maximum of 20% of the Company's issued capital (inflation-restated issued capital in accordance with the communiqués and announcements of CMB). The second legal reserve is appropriated at the rate of 10% of all distributions in excess of 5% of the Company's issued capital (inflation-restated capital in accordance with CMB). The legal reserves are not available for distribution unless they exceed 50% of the issued capital, other than that legal reserves cannot be used.

Quoted companies distribute dividend according to the Communiqué No: II-19.1 which is effective from 1 February 2014 of the CMB.

Companies distribute dividend within the framework of the profit distribution policies determined by the general assemblies and in accordance with the related legislation by the decision of the general assembly. Within the scope of the communiqué, a minimum distribution ratio has not been determined. Companies pay dividends as specified in articles of incorporation or in profit distribution policies.

Positive distinction from inflation adjustment to shareholders' equity and carrying amount of paid-in capital extraordinary reserves can only be netted-off against prior years' losses and used as an internal source for capital increase. However, when positive distinction from inflation adjustment to shareholders' equity is used for cash dividend distribution, it is subject to income tax.

Statutory resources attributable to dividend distribution are TRL1.660.994 as of December 31, 2020.

Dividend distribution of companies has been regulated until 31 December 2020 with the provisional Article 12 of Law on Mitigating of Effects of Coronavirus (Covid-19) Outbreak on Economic and Social Life and the Law on Amendment of Certain Laws (the Law) dated April 17, 2020, and numbered 7244 (Note 15). Within the framework of the limitations on dividend distribution and other relevant legislation, Board of Directors' proposal for dividend distribution dated February 27, 2020 was rejected at the 2019 Ordinary General Assembly and it was decided not to distribute any profit by our shareholders.

Within the framework of the Communiqué published on the Official Gazette dated 17 May 2020 and numbered 31130 by the Ministry of Trade and in accordance with the conformity opinion received from the Ministry of Trade; Extraordinary General Assembly meeting was held on July 9, 2020, General Assembly has approved a cash dividend proposal of gross TRL1,7740 (net TRL1,5079) per each share including redeemed shares with 1 TL nominal value amounting to a total of TRL1.069.641 to be distributed from the released legal reserves, realizing a 177,40% gross dividend distribution for the period January-December 2019. As a result of the decision, Anadolu Efes has distributed dividend amounting to a total of TRL452.377 in the year ended as of December 31, 2020, related with the year ended as of December 31, 2019 (2019, for a gross amount of full TRL0,5068 per share, amounting to a total of TRL300.832).

**NOTE 29. TAX ASSETS AND LIABILITIES**

The corporation tax rate for the fiscal year is 22% in Turkey (31 December 2019 - 22%). Corporate tax returns are required to be filed until the twenty fifth of the fourth month following the fiscal year end and paid in full until the end of the same month. The tax legislation provides for a provisional tax of 22% (2019 – 22%) to be calculated and paid based on earnings generated for each quarter. The amounts thus calculated and paid are offset against the final corporate tax liability for the fiscal year.

In accordance with the regulation numbered 7061, published in Official Gazette on 5 December 2017, "Bazı Vergi Kanunları İle Diğer Bazı Kanunlarda Değişiklik Yapılmasına Dair Kanun", corporate income tax rate for the years 2018, 2019 and 2020 has increased from 20% to 22%. In accordance with the regulation numbered 7061, Article 5 entitled "Exceptions" of the Corporate Tax Law has been amended in Article 89 of the Law. In accordance with (e) clause in the first paragraph of the Article, the exemption of 75% applied to gains from the sales of lands and buildings held by the entities for two full years has been reduced to rate of 50%.

Companies located in Turkey has used 20% tax rate for deferred tax calculation which effective as of January 1, 2021. As of December 31, 2019; transactions of timing differences until 2020 has been calculated with 22% deferred tax rate and for those extending to 2021 and beyond, deferred tax assets and liabilities are calculated with the rate of 20%.

According to the Turkish Tax Law, corporate tax losses can be carried forward for a maximum period of five years following the year in which the losses were incurred. The tax authorities can inspect tax returns and the related accounting records for a retrospective maximum period of five years.

In Turkey, the tax legislation does not permit to file a consolidated tax return. Therefore, provision for taxes, as reflected in the consolidated financial statements, has been calculated on a separate-entity basis.

The main components of tax assets and liabilities as of December 31, 2020 and 2019 are as follows:

	2020	2019
Prepaid corporate tax	289.661	229.259

**NOTE 33. FINANCIAL INSTRUMENTS AND FINANCIAL RISK MANAGEMENT**

**a) Interest Rate Risk**

The Group is exposed to interest rate risk through the impact of rate changes on interest bearing assets and liabilities. The Group manages interest rate risk by using natural hedges that arise from offsetting interest rate of assets and liabilities or derivative financial instruments.

The Group manages interest rate risk arising from the interest rate fluctuations on international markets, by using interest rate swap (IRS) agreement. As of December 31, 2020 there is no outstanding IRS agreement. (December 31, 2019 – USD43 million).

Certain parts of the interest rates related to borrowings are based on market interest rates; therefore, the Group is exposed to interest rate fluctuations on domestic and international markets. The Group’s exposure to market risk for changes in interest rates relates primarily to the Group’s debt obligations.

The Group’s financial instruments sensitive to interest rate risk is as follows:

	2020	2019
<b>Financial instruments with fixed interest rate</b>		
Financial assets	-	-
Financial assets at fair value through profit or loss	7.583.770	5.463.709
Financial liabilities	(10.913.433)	(9.032.725)
<b>Financial instruments with floating interest rate</b>		
Financial liabilities	(880.719)	(1.071.265)

At December 31, 2020, if interest rate on the Group’s borrowings would have been 100 basis points higher / lower with all other variables held constant, then profit before tax and minority interest for the period ended March 31, 2021 which is the following reporting period, would be:

	2020	2019
Change in EURO denominated borrowing interest rate	1.547	715
Change in USD denominated borrowing interest rate	84	1.472
Change in Other denominated borrowing interest rate	348	672
<b>Total</b>	<b>1.979</b>	<b>2.859</b>

**b) Foreign Currency Risk**

Foreign currency risk generally arises from the EURO and USD denominated assets and liabilities of the Group. The Group has transactional currency exposures. Such exposures arise from sales or purchases of goods and services or borrowings of the Group in currencies other than the functional currency. The Group manages short term foreign currency risk by balancing foreign currency denominated assets and liabilities. The Group designates certain part of its bank deposits for the future raw material purchases, operational expense and interest related payments Note 6 Group’s foreign currency liability consists of mainly long term liabilities. Accordingly, in the short term foreign currency risk that may arise from fluctuation of foreign currencies are relatively limited.

**c) Foreign Currency Hedge of Net Investments in Foreign Operations**

The Group designated denominated bond issued amounting to USD500 million as of January 1, 2018 and loans amounting to EURO100 million as of April 1, 2018 as a hedging instrument in order to hedge its foreign currency risk arising from the translation of net assets of its subsidiary located in Netherlands, Efes Breweries International (whose main activity is facilitating foreign investments in breweries). The Group paid loan amounting to EURO50 million in December 2019 and the other EURO50 million in October 2020 therefore, there is no hedging instrument in EURO currency as of 31 December 2020.

As of April 1, 2018, CCI designated USD 319 million out of USD denominated bond issued amounting to USD500 million as a hedging instrument in order to hedge its foreign currency risk arising from the translation of net assets of its subsidiary located in Netherlands, CCI Holland and Waha B.V.

The effective part of the change in the value of the bonds and loans designated as hedging of net investments amounting to TRL1.283.115 (TRL1.026.492 - including deferred tax effect) is recognized as “Gains (Losses) on Hedge” under Equity and to “Other Comprehensive Income (Loss) Related with Hedges of Net Investment in Foreign Operations” under Other Comprehensive Income (December 31, 2019 - TRL572.837 (TRL446.813 - including deferred tax effect)).

**d) Liquidity Risk**

Liquidity risk is the risk that an entity will be unable to meet its net funding requirements. The risk is mitigated by matching the cash in and out flow volume supported by committed lending limits from qualified credit institutions. The Group also reduces the risk by preferring long-term debt.

The analysis of non-derivative financial liabilities as at 31 December 2020 and 2019 in the statement of financial position is as follows:

**e) Price Risk**

This is a combination of currency, interest and market risks which the Group manages through natural hedges that arise from offsetting the same currency receivables and payables, interest bearing assets and liabilities. Market risk is closely monitored by the management using the available market information and appropriate valuation methods.

**f) Credit Risk**

Credit risk is the risk that one party to a financial instrument will fail to discharge an obligation and cause the other party to incur a financial loss. The Group attempts to control credit risk by limiting transactions with specific counterparties and assessing the creditworthiness of the counterparties.

Concentrations of credit risk arise when a number of counterparties are engaged in similar business activities or activities in the same geographic region, or have similar economic features that would cause their ability to meet contractual obligations to be similarly affected by changes in economic, political or other conditions. Concentrations of credit risk indicate the relative sensitivity of the Group's performance to developments affecting a particular industry or geographic location.

The Group seeks to manage its credit risk exposure through diversification of sales activities to avoid undue concentrations of risks with individuals or groups of customers in specific locations or businesses. The Group keeps guarantees for a part of its receivables by means of DDS (Direct Debit System). The Group also obtains guarantees from the customers when appropriate and keep considerable portion of the receivables under guarantee.

**g) Capital Risk Management**

The Group's policy is to ensure that it maintains a strong credit rating and healthy capital ratios in order to support its business and maximize shareholder value. The Group periodically measures Net Debt to EBITDA ratio to maintain capital risk management. Net Debt is calculated by deducting cash and cash equivalents and deposits over three months from total borrowing.

**NOTE 34. FINANCIAL INSTRUMENTS**

**Fair Value**

Fair value is the amount for which an asset could be exchanged, or a liability settled between knowledgeable, willing parties in an arm's length transaction. The optimum fair value of a financial instrument is the quoted market value, if any.

The financial assets and liabilities which are denominated in foreign currencies are evaluated by the foreign exchange rates prevailing on the date of balance sheet which approximate to market rates. The following methods and assumptions were used to estimate the fair value of each class of financial instrument of the Group for which it is practicable to estimate a fair value:

**a) Financial Assets**

The fair values of certain financial assets carried at cost in the consolidated financial statements, including cash and cash equivalents plus the respective accrued interest and other financial assets are considered to approximate their respective carrying values due to their short-term nature and negligible credit losses. The carrying value of trade receivables along with the related allowance for unearned income and uncollectibility are estimated to be their fair values.

**b) Financial Liabilities**

Trade payables and other monetary liabilities are considered to approximate their respective carrying values due to their short-term nature. The bank borrowings are stated at their amortized costs and transaction costs are included in the initial measurement of loans and bank borrowings. The fair value of bank borrowings are considered to state their respective carrying values since the interest rate applied to bank loans and borrowings are updated periodically by the lender to reflect active market price quotations. The carrying value of trade payables along with the related allowance for unrealized cost is estimated to be their fair values.

**Fair value hierarchy table**

The Group classifies the fair value measurement of each class of financial instruments according to the source, using the three-level hierarchy, as follows

Level 1: Market price valuation techniques for the determined financial instruments traded in markets

Level 2: Other valuation techniques including direct or indirect observable inputs

Level 3: Valuation techniques not containing observable market inputs.

**NOTE 36. EVENTS AFTER REPORTING PERIOD**

- a) Within the framework of the Communiqué published on the Official Gazette dated 17 May 2020 and numbered 31130 by the Ministry of Trade and in accordance with the conformity opinion received from the Ministry of Trade; Extraordinary General Assembly meeting was held on July 9, 2020, General Assembly has approved a cash dividend proposal of gross TRL1,7740 (net TRL1,5079) per each share including redeemed shares with 1 TL nominal value amounting to a total of TRL1.069.641 to be distributed from the released legal reserves, realizing a 177,40% gross dividend distribution for the period January-December 2019. As a result of the decision, Anadolu Efes has distributed dividend amounting to a total of TRL452.377 as of 31 December 2020, related with the year ended as of December 31, 2019. In addition, as of 4<sup>th</sup> of January remaining dividend amount TRL 617.264 has started to be distributed.
- b) On September 10, 2020, Soft Drink Operation’s Board of Directors resolved to invite Company's shareholders to the Extraordinary General Assembly meeting to propose the distribution of a total TRL 211.128 gross dividends to be paid from accumulated profits in accordance with the Provisional Article 13/1 of Turkish Commercial Code No. 6102 and Communiqué on the Procedures and Principles Regarding the implementation of the Provisional Article 13 of the Turkish Commercial Code numbered 6102. However, with the Presidential Decree no. 2948 published in the Official Gazette dated September 18, 2020, it was decided to extend the restriction period for the distribution of profits specified in the aforementioned Communiqué by three months to December 31, 2020, therefore the dividend distribution and the extraordinary general assembly processes were cancelled.

Now that the restriction period has ended, Soft Drink Operation’s Board of Directors resolved on January 20, 2021 to invite Company's shareholders to the Extraordinary General Assembly meeting to propose the distribution of a total TRL 211.128 gross dividends (from extraordinary reserves after legal liabilities are deducted) to be fully paid from accumulated profits. Total dividend amount will be paid starting from February 18, 2021.

At the Extraordinary General Assembly Meeting dated February 17, 2021, pursuant to the Board of Directors' proposal dated January 20, 2021, the distribution of a total gross dividends of TRL 211.128 is approved with majority of the votes, to be paid starting from February 18, 2021.
